બોલોચોલો to the StarWheels universe...

The StarWheel neo-mandalas were envisioned on Christmas day 1984, in Santa Monica, California. The next 30 years were devoted to the creative birthing of 108 StarWheel templates (9 series of 12), airbrushed on 6' x 6' canvas through lace-like stencils.

These paintings became the classical Collection of the StarWheels, a bridge to spirit consciousness, synthesizing the world-wide traditions of mandalas & sacred circles and the wisdom of Phi-based cosmic science.

Over the seasons, the StarWheel seeds grew into new generations of images & visuals, facilitated by graphic computing. All these new renditions retain an umbilical cord to the original StarWheels: they use the SW hi-res scans and just play with the data, unfolding and reconfiguring the layers of data encoded in the original StarWheel templates.

Many new realms opened up as the StarWheels were unpacked - and many more will be explored as interactive / immersive technologies progress and are navigated by new generations of galactic humans.

In this book, we present:

the StarWheels first book 1 The First 36 StarWheels

Other families of SW renditions are:

- The StarWaves, Vibrational Sacred Art
- The StarWheel Yoga Mats & Prayer Rugs
- The StarWheel Fashion & Yoga Gear
- StarWheel Angels & Liquid Light

The gallery of the 108 original StarWheels can be found here:

as well as in the book “StarWheels” (Gaia-Gala Publishing, 2022).

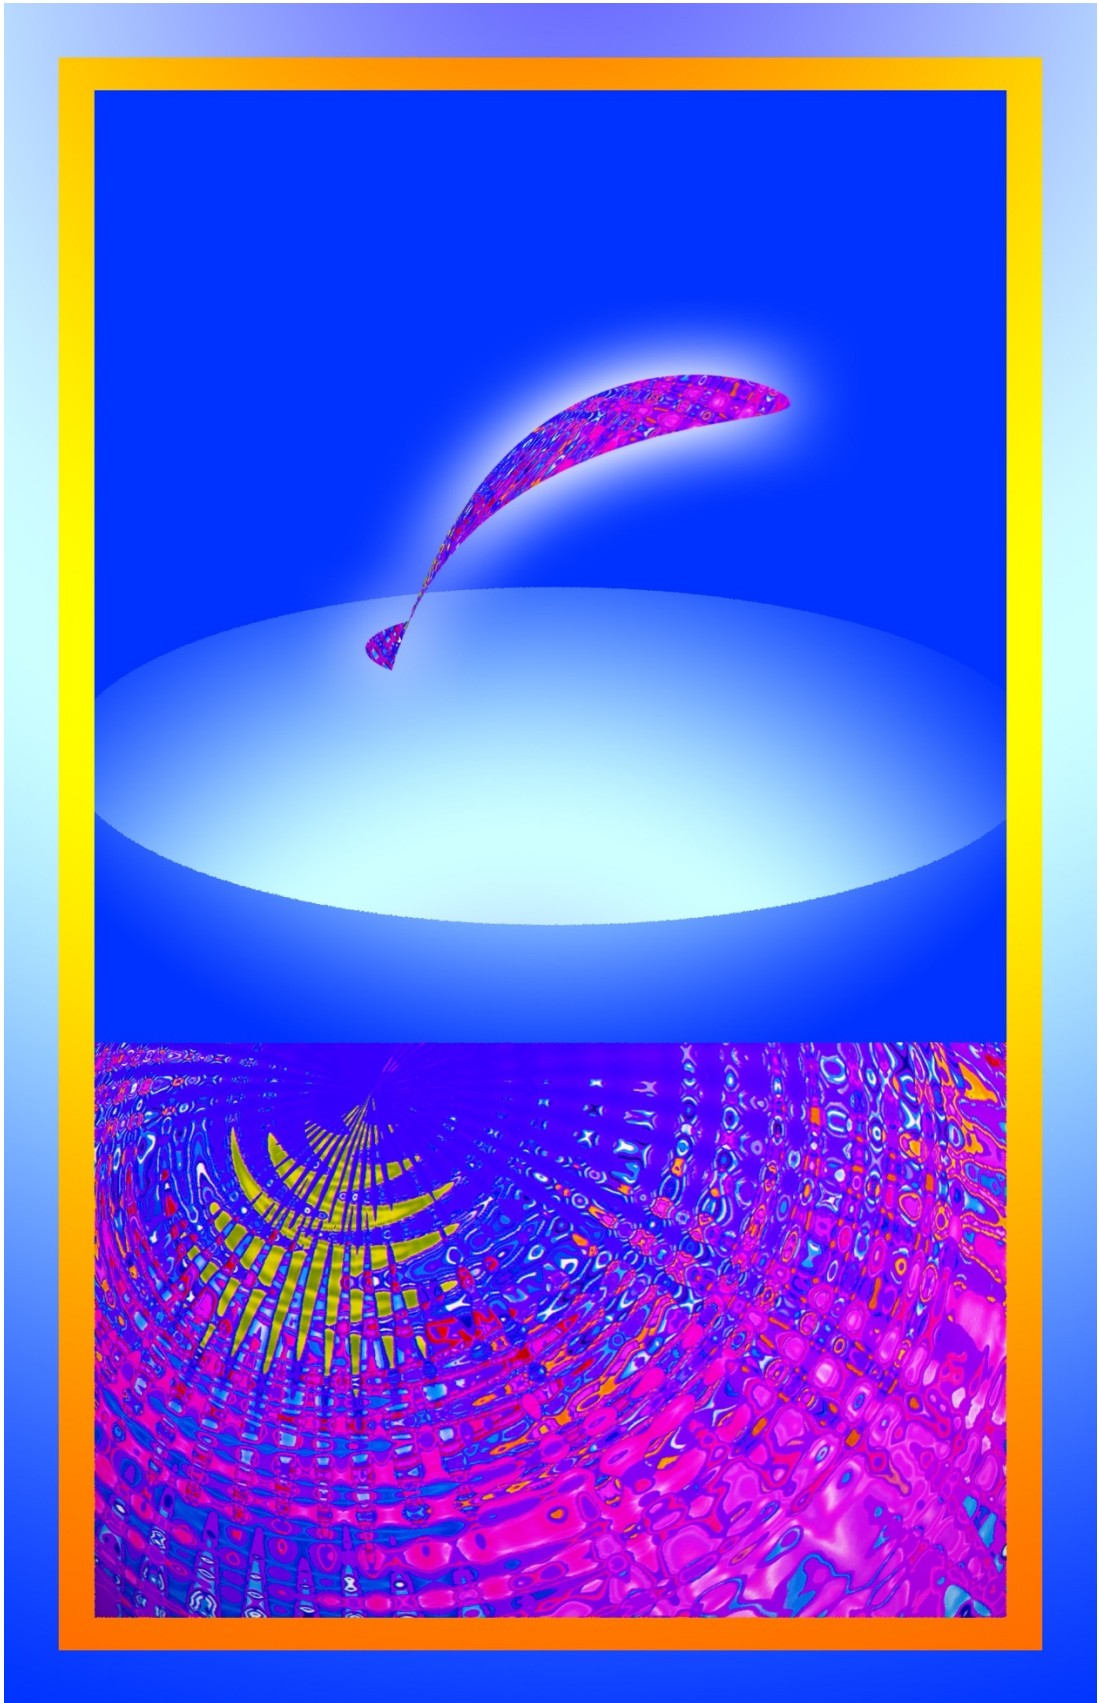

“The StarWheel Vision” book documents the SW process (Gaia-Gala, 2022)
